

## **Clinical and Experimental Otorhinolaryngology**

**Supplementary Table 2.** Analysis of neck structural re-recurrence (patients) after percutaneous ethanol injection vs. rescue surgery

Variable	Ethanol injection	Rescue surgery
Total re-recurrences	15 (36.58)	14 (34.14)
Thyroid bed recurrence	4 (9.75)	6 (11.42)
Lymph node	9 (20.93)	20 (28.57)
Same neck compartment <sup>a)</sup>	6 (14.63)	8 (19.51)
Distant metastasis	5 (12.19)	3 (7.31)

Values are presented as number (%).

<sup>a)</sup>Neck compartment involved in first Ethanol injection procedure or rescue surgery.
