

Supplementary Table 4. Relationship between periodic limb movement during sleep and the prevalence of positional obstructive sleep apnea

Variable	Total	POSA	Non-POSA	P-value
PLMS	473	392 (82.9)	81 (17.1)	<0.001
Non-PLMS	4,602	3,165 (68.8)	1,437 (31.2)	<0.001

Values are presented as number (%).

POSA, positional obstructive sleep apnea; PLMS, periodic limb movements during sleep.

Chi-square test was used.
